

Product Information Sheet

Plastic Sealing Set

Product Overview:

The ROTWEISS Plastic Sealing Set is the ideal solution for maintaining and sealing plastic parts in outdoor areas. It includes the ROTWEISS Plastic Sealant, the ROTWEISS Application Sponge, and the ROTWEISS Application Cloth – perfectly matched for an even, economical, and precise application. The sealant provides long-lasting protection for bumpers, spoilers, trim, and other plastic parts against environmental influences while intensifying color restoration.

Set Contents:

- 1x ROTWEISS Plastic Sealant 100 mL
- 2x ROTWEISS Application Sponge

Product Information Sheet

Plastic Sealing Set

-
- Weight: 210 g/m²
 - Contents per pack: 10 pieces
 - Care Instructions:
 - Can be used directly from the packaging without pre-washing.
 - Washable up to 90 °C.
 - Do not use fabric softener.
 - Do not wash with lint-producing textiles (e.g., cotton).

Areas of Application:

- Vehicle care: Cars, motorcycles, RVs, boats, and airplanes.
- Care & protection of exterior plastic parts on vehicles.
- Also suitable for interior use.
- Color restoration and long-term sealing.

Application:

- Thoroughly clean the surface before application and allow it to dry completely.
- Wrap the application cloth around the ROTWEISS application sponge. Apply the care product and spread it thinly and evenly on the dry surface.
- Allow the sealant to cure. Protect the surface from external influences during the curing time (24 hours).
